Dear Delegate,

RE: RASCO 2023 CONFERENCE INVITATION AND CALL FOR ABSTRACTS

The 2023 Radiographers' Scientific Conference (RSC) committee wishes to invite you for the **10th RASCO 2023** to be held as from the **18th October – 21st October 2023** at **Diani Beach Resort & Spa – Diani, Kwale County**. The theme of the conference is **“RESILIENCE IN RADIOGRAPHY: Diversity, Inclusivity, and Equity in Practice of Radiography”**

This theme was developed along the backdrop of ongoing reforms within the radiography practice industry to enhance quality service delivery whilst addressing global challenges. *In diversity, Inclusivity and Equity* we envisaged that developing cross cultural competency in practice leads to a richer understanding of the clients being attended to and a greater ability to provide culturally responsive care regardless of the professional backgrounds, cultures, perspective and socio-economic status. Additionally, we ride on the premise of just treatment of all professionals, regardless of their background. To ensure that all have equal access to training, resources, and opportunities for career advancement

There will be a pre-conference activity slotted for **18th October 2023** which will be one day workshop themed **“Strategic Purchasing and Payment Methods for Radiography Services.”** The target audience will be Radiology and imaging departmental managers, County Health administrators, Insurance service providers and Asset financing / Leasing institutions.

The RASCO Scientific Committee therefore calls on interested persons to submit articles on their experiences and research activities to be presented for the conference in either oral or poster presentation Touching on: Medical Radiography, Forensic Radiography, Industrial Radiography, and Veterinary Radiography under the following sub-themes:

IN PURSUIT OF QUALITY RADIOGRAPHY
